New in This Release

New Feature Highlight:

The following new features are the most impactful for users, so we describe them here in greater detail:

New Procedure - Imaging / Ultrasound

A new procedure on page 8 has been added to allow users to document imaging and ultrasound.

The screenshot shows a medical form interface with a header section containing 'Vital Signs' and a date/time stamp '01/30/10 05:56'. Below this are several data entry fields for 'Date', 'Time', 'HR', and 'HR Method'. A 'Glu' field is also present. A 'Stroke Scale' dropdown menu is visible. A 'Comments' section contains a text area and buttons for 'Repeat Vital Signs', 'No Change', 'EKG Import', and 'Undo EKG Import'. There are also fields for 'GCS: E', 'V', 'M', 'Total', and 'Qualifier'. A 'Sedation' section includes a 'Sedation Scale' field. At the bottom, there is a 'Protocol' dropdown and an 'Assessed By' field. On the right side, a vertical 'Add Action' list is shown, with 'Imaging/Ultrasound' highlighted in blue. Other items in the list include 'LADS', 'Drains', 'Ventilator', 'MAP', 'Extrication', 'Rescue', 'Childbirth/OB', 'Wound Care', 'Hosp. Notify', and 'Critical Care'. A 'SAVE / Add Line' button is at the bottom right.

The screenshot shows a dropdown menu titled 'Imaging/Ultrasound Log' with a 'Type' field. The menu is open, displaying a list of procedure types. The types listed are: Abdominal - AAA, Abdominal - Hydroureterosis, Bladder Volume, Cardiac, ECHO, FAST Exam, Hemothorax, Long Bone Fracture Diagnosis, Lower Extremity DVT, Pneumothorax, Pulmonary Edema, Trans-cranial / Stroke, Vascular Access, X-ray, and eFAST Exam. The 'Type' field is currently empty.
