**New Features**

Key	Summary	Release Notes
EPCR-86	Gold - Data Validation - Mileage Math Calculation	Data Validation to support mileage math was added to the Data Validation code tables. Users can now subtract mileage and create logical checks such as "if mileage to the scene is less than 6 then X".
EPCR-94	Gold - Dynamic Data Validation for Additional pages	Some Gold Pages such as Page 2 were recently "refactored" to improve the UI and user experience. During this process, the dynamic data validation that shows red or yellow outlines on fields was turned off to facilitate more focused testing. This feature has been turned back on for Page 2.

**Improved in This Release**

The following issues have been addressed and resolved in this release:

**Page 1**

Key	Summary	Release Notes
EPCR-209	Gold - CAD Data Missing After Import	Fixed an occasional issue that occurred when importing CAD data for "Other" Receiving locations that resulted in some CAD information not transferring into the fields of the chart.
EPCR-340	Gold - CAD Import missing Patient and Dispatch elements after import	Similar to the above, an issue was corrected related to patient and dispatch information failing to transfer to the chart.

**Patient Page**

No changes.

**Page 2**

No changes.

**Page 3**

No changes.

**Page 4**

No changes.

**Page 5**

No changes

**Page 6**

No changes

**Page 7**

No changes.

**Page 8**

Key	Summary	Release Notes
EPCR-235	Gold - Performed By Field Not Required	Fixed an issue where the "Performed By" field in Gold was not enforced as a required field for all procedures. In Legacy, the field is simply referred to "Crew Id" and is required for all procedures.
EPCR-133	Gold - Add Word Wrap Solution To Custom Assessment Questions	Custom Assessments in Gold with long descriptions previously caused the screen to extend horizontally. This was changed to stack the assessment questions vertically to address the horizontal scrolling issue.

**Page 9**

No changes.

**Other**

Key	Summary	Release Notes
EPCR-355	Gold - NEMSIS PDF Generation for Billing dataset	Occasionally, NEMSIS PDF generation for billing exports would fail. This issue has been corrected.
EPCR-608	Gold - Fire Data Validation Action- Can't Save Criteria	Fixed an issue in the Fire Code tables that prevented data validation
