emsCharts Gold Release Notes - v5.1.35 - October 1, 2018

## emsCharts v5.1.35 (Sprint # 34, 35)   October 1, 2018
New in This Release

New Feature Highlight:

The following new features are the most impactful for users, so we describe them here in greater detail:

Clinical Titles on Chart

Added two new print options in **Service Configuration > Chart tab, under Print Settings**; "Clinical Titles" and "ALS Provider Notice".

Chart print-out with new config options set to "No"

When set to "Yes", the print option "Clinical Title" will allow users to display the crew clinical titles next to their name on the top of the chart.

When set to "Yes", the print option "ALS Provider Notice" will allow users the option to display the "* designates an ALS Provider" message on their charts.

Chart print-out with new config options set to "Yes"

New Features

The following features have been added in this release:
