emsCharts **goldenHour**

emsCharts v5.1.47 (Sprint # 46, 47)	April 1, 2019

Table of Contents

New in This Release

Key	Summary	Release Notes
EMC-6884	Gold - Security Role Update Button	Improved the security roles code table to "freeze" the update button to the bottom of the screen so that it is always visible.
EMC-6882	Gold - Update Report: User Security Audit	Improved the User Security Audit page to match the existing look and feel of the emsCharts Gold application.
EMC-6643	Gold - Filter Units by Base Site	Added new configuration option to the units code table. This change allows to restrict units to a base. This affects homepage and Page 1 "units" and "base" selectors.
EMC-6554	Gold - Add Additional SCT Triggers	Added SCT procedure options for Page 8 Ventilator and Titrate procedures.
EMC-6915	Gold - Add crm-ticket-alert@emscharts.com email to CRM tickets	Updated alert email for CRM priority services for support tickets.
EMC-6799	Gold - Suppress QA Flag email if user is not in service	Added check to suppress QA Flag emails if the crew member does not belong to same service that the chart belongs to.

Improved in This Release

The following issues have been addressed and resolved in this release:
