**New in This Release**

**New Feature Highlight:**

The following new features are the most impactful for users, so we describe them here in greater detail:

**New Features**

The following features have been added in this release:

Key	Summary	Release Notes
EMC-7485	Gold - Pert Negatives Saving but they do not Highlighting in UI	Fixed pertinent negatives on the patient page and page 3.
EMC-7583	Gold - Vent 'Presssure' Misspelling and other Vent items	Spelling corrections on page 4.
EMC-7650	Gold - Special Report Custom Display Fields	Fixed a display issue with the Special Report Custom Display Fields code table.
EMC-7452	Gold - Page 4/8 New Ventilator Fields	Added Exhaled Tidal Volume and ET Cuff Pressure to page 4 and Page 8 ventilator options.
EMC-7031	Gold - Loginpage Calendar - put in iFrame	Fixed an issue with the calendar display on the home page. Calendar items support HTML markup and adding incomplete or malformed HTML had the potential to break the layout of the home page.

EMC-7284	Gold - 'GIS coordinates have changed.' keeps displaying on P1	Fixed an issue where the "Recalculate Mileage" popup would show on each Page 1 visit despite not changing any mileages or addresses.
EMC-7551	Gold - Improved Layout for Data Validation Summary (Panel)	Improved the data validation summary panel to be more descriptive. The summary panel should now display clearer information regarding data validation rule warnings and failures.

**Improved in This Release**

The following issues have been addressed and resolved in this release:

**Page 1**

No changes.

**Patient Page**

Key	Summary	Release Notes
EMC-5270	Patient Records - Search Form - Custom Criteria Select	When searching by custom criteria for Patient Records, the criteria list did not allow selections. Cleaned up the layout and added dynamic functions that correct inputs.

**Page 2**

No changes.

**Page 3**

No changes.

**Page 4**

No changes.

**Page 5**

No changes

**Page 6**

No changes.

**Page 7**

No changes.

**Page 8**

No changes.

**Page 9**

Key	Summary	Release Notes
EMC-6075	Gold P9 - Activity Audit NOT Saving To Database	Set the default values to "No" and fixed styling issues on the incident form located on page 9.

EMC-7407	Gold - Gold requiring signatures to lock chart, but legacy does not	Fixed an issue where some charts entered on Gold - depending on configuration - would require a signature when a signature would not be required if entering the chart in legacy. This issue related to the way the "Modify All Charts in Initial Entry" privilege was handled in Gold.
----------	---	---

**Other**

Key	Summary	Release Notes
EMC-7677	Gold - Remove "restricted" from columns on secure transmissions	Removed restricted HPI columns on SFTP scheduled reports.
EMC-7362	Gold - P1 Validate Geocodes when manually entered.	Added an extra layer of validation to geocodes when manually entered to prevent errors on Page 1.
EMC-6733	P5 Overhaul - HTML for Obstetrics tab	Page 5 refactor Obstetrics.
EMC-7603	Gold - Correct the label for Ionized Calcium (Ionized Ca)	Corrected spelling of Ionized Ca (mg/dL).
EMC-7265	Gold - Custom Reports - Test Tab Header / Side Bar and Display Broken	Fixed an issue with the user interface of the Custom Reports "Test" tab.
EMC-6403	Gold - Patient phone number duplicating	Corrected an issue on the Patient Management screen where phone numbers would sometimes appear duplicated or incorrect.
EMC-7175	Gold - Document Warehouse Fail to Upload	Fixed an issue with the logo on document warehouse update.
EMC-6769	Gold - Document Warehouse - Category Not Found	Fixed an issue in the Document Warehouse module where the list of categories would not properly populate with selections.
EMC-7273	Gold - Code Table (at least Calendar) Multipick Broken	Fix issue with the "multipick" control on various code tables. On some code tables, the input field would appear broken, not allow value entry, and would not have valid CSS styles applied to be consistent with the rest of the application.
EMC-7252	Gold - Code Table Dropdown Typeahead Not Working - Firefox Only	Fixed an issue with the Code Table dropdown type ahead feature in Firefox. The "typeahead" feature was not working properly in the Firefox browser. Previously users were forced to scroll through the whole dropdown menu.

**Known Issues**

The following issues have already been identified and will be addressed in a future release:
