Improved in This Release

The following issues have been addressed and resolved in this release:

Download here: <https://getmobile3.com/>

Key	Summary	Release Notes
EMC-8156	Mobile: Internal coding	Updated internal coding to better catch possible errors
EMC-8124	Mobile: Medication Procedure Bug Fix	Fixes isolated bug with saving procedure medications
EMC-8113	Mobile: Logging Improvements	Update to the mobile logging functionality
EMC-7741	Mobile: Unit CAD Configuration	Provides the ability to set at the service level how you want the Dispatch tab (CAD Import) to function in regards to the Base/Unit setting on the "Unit" tab. Currently, the Dispatch tab filters for base and unit are set via the values saved on the Unit tab. The configuration will allow you to not default the base filter, for example, since CAD may not have that data.
EMC-7611	Mobile v3 NY Location Code	Fixing bug with NY Location Code
EMC-3824	Mobile: Page Header Print Modification	Altered the printing to be PDF-based in order to allow setting the patient name and page numbers as headers and footers (respectively)

Known Issues

The following issues have already been identified and will be addressed in a future release:

- *None*
